Sir/Madam:

In response to the Office Action of 5 June, 2001, please amend the application as follows, and as indicated in the accompanying 'marked-up' copy of the specification:

Specification:

Delete Specification, beginning page 2, line 1, ending page 13, line 9. Insert:

SUMMARY OF THE INVENTION

The present invention constitutes a new and distinct variety of Floribunda rose plant which originated from a controlled crossing between " and ". The two parents were crossed and the resulting seeds were planted in a controlled environment. The new variety is named 'POULymp'. The new rose may be distinguished from its seed parent,, by the following combination of characteristics:

1. The unnamed seed parent's flowers are yellow, where those of 'POULymp' are more golden bronze in color.
